COLISEUM AND MUSIC HALL, HOUSTON, TEXAS.  
 Center of sports, exhibitions and concerts, this building  
 houses many of Houston's most widely famed events. The  
 Coliseum is separated from the Music Hall by sound-  
 proof walls in order that several events may take place  
 at one time. Conventions and meetings of international  
 scope are attracted to it because it is located in Houston,  
 "America's fastest growing metropolitan city."

Dear, we joined a group of  
Sept. 21st for our historic trip  
to the restored fishing village  
in Mystic. Below house,  
church, apothecary shop, a  
well as forge & saw mill  
and a variety of boats  
on a close. This area we  
saw that rather completely. Was  
feel qualified to give a talk on  
history.

What a wonder-  
ful place! There  
is so much  
interesting history  
connected with  
this part of Canada.  
We've seen a  
great deal of  
Quebec and

# CHATEAU FRONTENAC

Le majestueux Château Frontenac se tient comme un grand château médiéval du côté est de la Terrasse Dufferin, au pied du Bastion du Roi et de la Citadelle. Il est construit à l'endroit du vieux Château Saint-Louis, jadis la résidence Vice-Royale du Gouverneur du Canada. Son immense structure domine le site de Québec et est le centre de l'activité sociale. On peut voir de la Terrasse Dufferin un des plus merveilleux panoramas du monde. Les tourelles d'architecture Normande du Château conservent au vieux Québec le souvenir de la vieille France. L'ameublement et la décoration de ses spacieuses salles publiques sont d'un grand luxe.

— • —

The stately Chateau Frontenac stands like a great medieval castle at the eastern end of Dufferin Terrace just below the King's Bastion and the Citadel. It is built over the site of the old Chateau St. Louis once the Vice-Regal residence of the Governors of Canada.

Q:

Classy joint, isn't it? We have a very quaint room - very lovely - overlooking the river. Arrived here from Montreal by bus at 12:30. Made a quick change, had lunch and started on a tour at 2 o'clock. Didn't get back here until about 8 o'clock. We hired a limousine, complete with guide, (rates very reasonable and covered about 80 miles). Visited the Island of Orleans and saw, among other things, the church which the British used as a hospital when they attacked Quebec. Everything is so old - buildings dating back to 1600, and in very good condition, too. Really enjoying myself as I never have before.

See you Monday.

set on a height overlooking the amphitheater of the Potomac, is one of the largest and stateliest buildings in the world. It is 751 feet in length and 350 feet in width, covering three and a half acres. The statue of Freedom on the dome towers 307 feet above the esplanade. The corner-stone was laid by President Washington in 1773; the central building was finished in 1797; and the extensions were first occupied by Congress in 1857 and 1859.

Washington's Flower Garden at Mt. Vernon retains the box-bordered beds as laid out by Washington more than a century and a half ago. Many of the trees and shrubs were planted by Washington. It is a fine example of the old fashioned garden.

For many years before Coronado's men discovered the Grand Canyon in 1540, the Indians were enjoying the peaceful serenity and beauty of this awe-inspiring spectacle.

Dear Nora.

We drove here today from Phoenix, it is glorious. We took Bis Morris to dinner last night. She is quite an interesting character in her old age. We are leaving for Salt Lake City tomorrow in this rented car. Then by train to California. Gen

Dear Pa + Ma,

Couldn't find any  
good picture post cards  
of this place - but it  
is pretty country in a  
wild + scrubby way.  
Very peaceful here after  
the hustle of New Orleans.  
Especially since it's raining

### LACE BALCONIES

This lovely old building was built in the early 1800's by Jean Lebranche. Its beautiful Iron Lace Balconies, with intricate designs of oak leaves and acorns, are outstanding among the many for which New Orleans is famous.

# INDEPENDENCE HALL, PHILADELPHIA

In this beautiful building, Independence Hall, the most historic spot in the United States, the Declaration of Independence was signed July 4th, 1776. Independence Hall was built during the years 1732-1741 and was originally the State House for the Colony of Pennsylvania. Andrew Hamilton, speaker of the general assembly in 1729 set about purchasing properties upon which to erect the structure, the chief builders of which were the carpenters, Edmond Woolley and Ebenezer Tomlinson. It is located on Chestnut Street between Fifth and Sixth Streets and it was here on June 16th, 1775 that Washington accepted his appointment as General of the Continental Army. The historic "Liberty Bell" is housed in Independence Hall and was rung on the morning of July 8th, 1776 to call all to hear the Declaration of Independence read to the people. The building has been remodelled several times, first in 1802 then in 1828 when the steeple was added and again in 1898 and 1913. The building contains many famed historical collections.

Dear Pop -

Got here about  
midnight. Al delphia has  
improved since your stay -  
is now quite ritzy (and clean).  
Met a ~~couple~~ couple of old friends  
at the conference today.

Tomorrow evening will  
drive down to Wilmington  
to see some more old friends.

Thanks for the good  
weekend. See you Oct. 9  
maybe. Will write before  
then, of course. Hark

The Great Smoky Mountains National Park  
Looking east from Chinquapin Ridge and over the town of Gatlinburg, which is hidden by the trees in the near foreground, we see in the distance, Mt. Guyot and at the right of it Mt. Chapman. They are located on the state line of North Carolina and Tennessee. Mt. Guyot is the third highest peak in the eastern United States, reaching an altitude of 6221 feet above sea level. Mt. Chapman's elevation is 6425 feet.
